Dear Minister Barak--

As I promised, this issue was discussed seriously. at our board meeting earlier this week. My board asked me to write you to emphasize that they want to be helpful to you and decided to see the reporting that comes out of the the October 9 presidential election in Azerbaijan before making a decision. I will write back to you as soon as dust settles after the Azerbaijan election with something concrete. Thanks very much for your patience, and all the best, Peter.
